Key Features

Stands out. Stands up. Unfolds
Does a lot in one hand with its 6.2-inch Cover Screen.1 Unfolded, the 7.6-inch Main Screen lets you really get into the zone.2 Pushed-back bezels plus an even more camouflaged Under Display Camera means there's more screen and no black dot getting between you and the breathtaking Infinity Flex Display.

Note's signature tool comes built in
The built-in S Pen keeps the legacy of Note alive. Plus, it helps you ditch the dependency on notebooks, making sketches and jotting notes effortless and eco-friendly.

New Taskbar for PC-like multitasking
Wipe out tasks in fewer taps. Add apps to the Taskbar for quick navigation and bouncing between windows when you're in the groove.4 And with App Pair, one tap launches up to three apps, all sharing one super-productive screen.

200MP. Wow-worthy resolution
Resolution on the Wide-angle Camera has nearly doubled, delivering strikingly clear photos. Zoom and crop your shots for a whole new view — or leave it intact for brilliant detail, corner to corner.

Power for those who don't pause
Your quest for epic mobile gaming is over. Snapdragon® 8 Gen 2 Mobile Platform for Galaxy optimises and streamlines your device for silky smooth games — without draining the battery.

Game for hours and hours
This intelligent 5000mAh (typical) battery saves power for when you use it most, so you can keep gaming and streaming late into the night.

World's first water resistant foldable smartphones
Be adventurous, rain or shine. You don't have to sweat the forecast when you've got one of the world's first water-resistant foldable smartphones.

Your Galaxy, the way you like it
One UI maximises customisation, allowing you to control the details, from lock screens and themes to widgets and notifications.
