## Key Features

### Stands out. Stands up. Unfolds

Does a lot in one hand with its 6.2-inch Cover Screen.<sup>1</sup> Unfolded, the 7.6-inch Main Screen lets you really get into the zone.<sup>2</sup> Pushed-back bezels plus an even more camouflaged Under Display Camera means there's more screen and no black dot getting between you and the breathtaking Infinity Flex Display.

### New Taskbar for PC-like multitasking

Wipe out tasks in fewer taps. Add apps to the Taskbar for quick navigation and bouncing between windows when you're in the groove.<sup>4</sup> And with App Pair, one tap launches up to three apps, all sharing one super-productive screen.

### Power for those who don't pause

Your quest for epic mobile gaming is over. Snapdragon® 8 Gen 2 Mobile Platform for Galaxy optimises and streamlines your device for silky smooth games — without draining the battery.

### World's first water resistant foldable smartphones

Be adventurous, rain or shine. You don't have to sweat the forecast when you've got one of the world's first water-resistant foldable smartphones.

### Note's signature tool comes built in

The built-in S Pen keeps the legacy of Note alive. Plus, it helps you ditch the dependency on notebooks, making sketches and jotting notes effortless and eco-friendly.

### 200MP. Wow-worthy resolution

Resolution on the Wide-angle Camera has nearly doubled, delivering strikingly clear photos. Zoom and crop your shots for a whole new view — or leave it intact for brilliant detail, corner to corner.

### Game for hours and hours

This intelligent 5000mAh (typical) battery saves power for when you use it most, so you can keep gaming and streaming late into the night.

### Your Galaxy, the way you like it

One UI maximises customisation, allowing you to control the details, from lock screens and themes to widgets and notifications.
